- Title of the project
- Location of the project
- Dates of the project
- Overall aims of the project
- Brief description of the phases of the project
- Final results of the project

You can use the following text as an example of how to write the brief description:

*The Cultural Awareness Foundation developed this heritage education programme in collaboration with pedagogues, psychologists, art historians and educators. Targeting elementary school children in Istanbul, Cultural Ants is an original education model that utilises cultural values as an intellectual stimulant. In this model, with the aim of raising children's awareness and sensibility to cultural heritage, specially-trained university student volunteers show children Istanbul's historical sites and provide information about the city's historical heritage in an active and entertaining fashion.*

*As the children are at the age of being most receptive to positive stimulus coming from older youth, efficiency and permanence of knowledge transferred to the children is better sustained. In addition, often coming from the most socio-economically disadvantaged families, these children may perceive the educated youth as role models. Through this model, the project is also able to reach families who are in most need for stronger integration into urban life.*
